Education

Truman State University | Kirksville, MO | Bachelor's in Computer Science | 08/2022 – 05/2026

- Current GPA: 4.0
- Courses: Intro to Computer Science I & II, Models of Computation, Object-Oriented Programming & Design, Data Structure, Database Systems, Computer Architecture

Projects And Experiences

- **Developed an Android application** enabling individuals with physical disabilities to compose text using speech by integrating **SpeechRecognizer** and **Text-To-Speech APIs**, enhancing **accessibility** and **communication**. Gained expertise in working with voice recognition APIs in Android systems and applying them to applications to improve accessibility.
- **Developed an Android application** with sign-up and sign-in functionality using personal emails or Google accounts, **ensuring security** for both users and developers. Gained expertise in adding extra layers of **security** through email verification, utilizing **Firebase** for secure email storage, and understanding the importance of various **sign-up functionality features**.
- **Worked as a paid Summer Researcher** for the Computer Science department at **Truman State University**, collaborating with a reputable professor to **develop a desktop application in Python** for analyzing exercise posture. Utilized **Mediapipe** for pose detection and **Tkinter** for the graphical user interface. Gained expertise in **Pose detection APIs**, applying AI to detect human movement, creating specific logic for each exercise to calculate proper posture based on angles, and implementing **fail-safe** to prevent rewarding incorrect postures.
- **Developed a website using HTML and CSS** to showcase individuals' skills beyond traditional resumes, providing employers with a deeper understanding of their capabilities. Acquired knowledge in website functionality, incorporating logic, designing responsive layouts for various screen sizes, and managing domain acquisition and HTML file linking.
- **Served as an International Ambassador**, managing the affairs of over 100 newly arrived international students over a year, enhancing communication, leadership, and cross-cultural skills through support and guidance for acclimation.
- **Managed the university's ID system**, ensuring the functionality of **thousands of IDs**, creating **hundreds of new IDs**, and resolving related issues, which enhanced problem-solving, attention to detail, and customer service skills.

Skills

Hard Skills: • JAVA • C++ • PYTHON • HTML • CSS • Mobile

Soft Skills: • Can Speak Several Languages • Customer Service
